The war was mostly a matter of enduring weeks of expectant waiting and, at random intervals, of conducting vicious manhunts through jungles and swamps where snipers harassed us constantly and booby traps cut us down one by one. At times, the comradeship that was the war's only redeeming quality caused some of the John Wesley Powell crimes - acts of retribution for friends who had been killed. Based on this model validated from experimental data, it can be seen that temperature, pressure and salinity all have significant effects on pH, alkalinity and speciations of aqueous solutions and on the solubility of calcite, halite, anhydrite and gypsum.
